## LANTONI®

The word LANTONI® is the anagram of my full name.

**LANTONI® is a patented label, registered at Turin's Patent Office ever since 1996.**

It defines my spherical paintings in which the subjects are painted on a sphere made of plexiglas. This artistic technique melts together sign and movements.

**This kind of artwork can be placed even in a garden, it doesn't need a wall to be exposed.**

## ADDITIONAL INFORMATION

**I have a great expertise in painting on plexiglas and polycarbonate.** These are new forms of art ideal for big surfaces such as the exterior front of a house. The presence of a reflected light behind the painting is recommended because the light interacts with the artwork.

These studies that I have conducted for more than 20 years are sponsored by the Vinavil Company
